

20th and 21st of October 2017

# CHEMICAL PEELING

Dr. med. O. Ph. Kreyden

Chemical peeling encompasses a wide range of methods and treatments. We would like to invite you to our 5th course on chemical peeling. After a theoretical overview we will deep dive in the different methods, conduct practical training and look at „live“ patients for results.

## PRELIMINARY PROGRAM

**Date:** Friday 20th and Saturday 21st of October 2017

**Place:** Praxis Dr. H. L. Keller, Hauptstr. 81, 4132 MuttENZ (nearby Basel), Switzerland

### Friday 20th of October

10.00 -12.00 **Theoretical part:** presentation of various peeling possibilities, including indication, pre- and post-management as well as anesthesia procedures.

12.00 -13.30 Lunch

13.30 -16.00 **Practical part I:** Intensive phenol peels, review at different time intervalls (results of 3 days and 1 week as well as 1 year) and patient visits

18.30-19.00 Apéro and networking

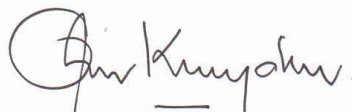

19.00 Dinner

### Saturday 21st of October

09.00 -12.00 **Practical part II (Peeling-to-Peeling):** soft peeling methods such as TCA and photo peels amongst participants and volunteers at different locations (face, neck and décolleté as well as hands)

12.00 End of the course and sandwich lunch

I look forward to your participation!
